The Back Channel

A MEMOIR OF AMERICAN
DIPLOMACY AND
THE CASE FOR ITS RENEWAL

William J.
Burns

The Back Channel

A Memoir of American Diplomacy
and the Case for Its Renewal

William J. Burns

Drawing on extensive research sourced from contemporaneous diplomatic cables, memos, and other documents central to American foreign policy, William J. Burns, the former Ambassador to Russia and Jordan for the U.S. Foreign Service, writes accessibly on a wide range of topics, including issues central to international relations theory as well as the shaping of public policy across the 20th century, all while laying out a comprehensive and accessibly-written history of American diplomacy.

"Bill Burns, one of the most respected diplomats of the post-Cold War years, has now written what I regard as the best diplomatic memoir of that period—must reading for anyone looking back on an era that's now ending, and for any young person looking forward to diplomacy as a profession in whatever era is likely to come."—John Lewis Gaddis, Robert A. Lovett Professor of Military and Naval History, Yale University

The World
A Brief Introduction
Richard Haass

This invaluable primer from Richard Haass, president of the Council on Foreign Relations, is designed to empower more informed, discerning citizens, better able to arrive at sound, independent judgments and to hold elected representatives to account. Global literacy is deeply necessary, and this is a critical time for college students and others to understand what is taking place around the world, why it is taking place, and how it will affect our lives. Toward these ends, *The World* focuses on essential history, what makes each region of the world tick, the many challenges globalization presents, and the most influential countries, events, and ideas. Explaining complex ideas with wisdom and clarity, *The World* is an evergreen book that will remain relevant and useful even as history continues to unfold.

"This is the book that explains how the world really works, how it is changing, and why it matters. Just what every citizen and student needs to read."

The Presidents vs. the Press

The Endless Battle between the White House and the Media—from the Founding Fathers to Fake News

Harold Holzer

"The FAKE NEWS media," Donald Trump has tweeted, "is not my enemy. It is the enemy of the American people." In this remarkable new account, acclaimed scholar Harold Holzer guides readers through the clashes between chief executives and journalists, a conflict as old as the republic itself. From George Washington to Trump, presidents have quarreled with, attacked, denigrated, and manipulated the fourth estate.

Washington groused about his treatment in the newspapers, but his successor, John Adams, actually wielded his executive power to overturn press freedoms and prosecute critical reporters. Thomas Jefferson tapped a reporter to find dirt on his rival, Alexander Hamilton. Andrew Jackson rewarded loyal newspapers with government contracts; Abraham Lincoln shuttered critical papers and imprisoned their editors without trial. FDR and JFK charmed journalists in order to protect their personal secrets, while Nixon cast the press as a public enemy for daring to investigate his own.

The Impeachment Report

The House Intelligence Committee's Report on Its Investigation into Donald Trump and Ukraine

The House Intelligence Committee
Introduction by Jon Meacham

For only the fourth time in American history, the House of Representatives has conducted an impeachment inquiry into a sitting United States president. This landmark document details the findings of the House Intelligence Committee's historic investigation of whether President Donald J. Trump committed impeachable offenses when he sought to have Ukraine announce investigations of former vice president Joe Biden and his son Hunter.

Penetrating a dense web of connected activity by the president and his associates, these pages offer a damning, blow-by-blow account of the president's attempts to "use the powers of his office to solicit foreign interference on his behalf in the 2020 election" and his subsequent attempts to obstruct the House investigation into his actions. Published here with an introduction offering critical context from bestselling presidential historian Jon Meacham, *The Impeachment Report* is necessary reading for every student of American democracy.

POLITICAL SCIENCE

The Narrow Corridor

States, Societies, and the Fate of Liberty

Daron Acemoglu and James A. Robinson

In this crucial, big-picture framework, the authors of *Why Nations Fail* argue that the corridor to liberty is narrow and stays open only via an incessant struggle between state and society. They reject the Western myth that political liberty is a steady state arrived at by a process of "enlightenment." Instead, they argue it's built on a fragile balance between state and society, between economic, political, and social elites and citizens, between institutions and norms.

War of Numbers

An Intelligence Memoir of the Vietnam War's Uncounted Enemy

Sam Adams

Foreword by Col. David H. Hackworth

Introduction by John Prados

In 1965, CIA analyst Sam Adams was transferred to Southeast Asia, where he was charged with assessing enemy morale and counting their ranks. The estimate he came up with varied wildly, however, from the official estimates being released by the White House for consumption by Congress, the media, troops in the field and the American electorate. In vibrant prose, this memoir from inside the belly of US intelligence operations reveals why the Vietnam War was never "winnable."

The Ones We've Been Waiting For

How a New Generation of Leaders Will Transform America

Charlotte Alter

There are now 26 millennials in Congress. They are governing Midwestern cities and college towns, running for city councils, and serving in state legislatures. They are acting urgently on climate change (because they are going to live it); they care deeply about student debt (because they have it); they are utilizing big tech but still want to regulate it (because they understand how it works). In *The Ones We've Been Waiting For*, Charlotte Alter defines this class of young leaders remaking the nation.

American Conservatism

Reclaiming an Intellectual Tradition

Edited by Andrew J. Bacevich

The ideas of American conservatism have long been misunderstood or belittled. Here, in a collection of 45 essential conservative writers, editor Andrew Bacevich surveys the core currents of conservatism in the United States since 1900: the importance of tradition, the mounting of resistance to an ever-expanding state, the opposition to collectivist utopias and other forms of tyranny abroad, and the necessity of free markets and economic growth to sustain individual liberties and prosperity.

A Knock at Midnight

A Story of Hope, Justice, and Freedom

Brittany K. Barnett

Brittany K. Barnett was only a law student when she came across the case of Sharanda Jones, who had been torn away from her young daughter and was serving a life sentence without parole for a first-time drug offense. As Brittany studied this case, a system came into focus: one where widespread racial injustice forms the core of America's addiction to incarceration. Moved by Sharanda's plight, Brittany set to work to gain her freedom—and to take on the American criminal justice system itself.

An Army Like No Other

How the Israel Defense Forces Made a Nation

Haim Bresheeth

In this fascinating history, Bresheeth charts the evolution of the Israel Defense Forces. He argues that the army is embedded in all aspects of daily life and identity. And that we should not merely see it as a fighting force enjoying an international reputation, but as the central ideological, political and financial institution of Israeli society. As a consequence, we have to reconsider our assumptions on what any kind of peace might look like.

The Force of Nonviolence

The Ethical in the Political

Judith Butler

Judith Butler's new book shows how an ethic of nonviolence must be connected to a broader political struggle for social equality. Considering nonviolence as an ethical problem within a political philosophy requires a critique of individualism as well as an understanding of the psychosocial dimensions of violence. Butler draws upon Foucault, Fanon, Freud, and Benjamin to consider how the interdiction against violence fails to include lives regarded as ungrievable.

Black America and the Presidents

Margaret Kimberley

Throughout the history of the United States, numerous presidents have left their legacies as slaveholders, bigots, and inciters of racial violence, but were the ones generally regarded as more sympathetic to the plight and interests of black Americans—such as Lincoln, FDR, and Clinton—really much better? Over the course of 45 chapters—one for each president—Margaret Kimberley enlightens and informs readers about the attitudes and actions of the highest elected official in the country.

The Washington War

FDR's Inner Circle and the Politics of Power That Won World War II

James Lacey

Based on years of research and extensive, previously untapped archival resources, *The Washington War* is the story of how the Second World War was fought and won in the capital's halls of power—and how the United States, which in December 1941 had a nominal army and a decimated naval fleet, was able in only 30 months to fling huge forces onto the European continent and shortly thereafter shatter Imperial Japan's Pacific strongholds.

To Obama

With Love, Joy, Anger, and Hope

Jeanne Marie Laskas

Every evening, at his request, President Obama was given 10 handpicked letters written by ordinary American citizens. He was the first president to interact daily with constituent mail and to archive it in its entirety. In *To Obama*, Laskas interviews the president, the letter writers themselves, and the staff who sifted through the powerful narrative of America.

"A moving and inevitably nostalgic or even elegiac read, redolent of the human grace and statesmanship of the Obama presidency." —*The Guardian*

American Democracy: 21 Historic Answers to 5 Urgent Questions

Edited by Nicholas Lemann

Amid the frenzied overload of cable news and incessant social media, it is becoming harder and harder to think clearly about US politics. This book presents key writings from the American past that speak to five contemporary flashpoints in our political landscape: race, gender, immigration, and citizenship; opportunity and inequality; the purpose and powers of the federal government; money, special privilege, and corruption; and protest and civil disobedience.

The New Class War

Saving Democracy from the Managerial Elite

Michael Lind

In both Europe and North America, populist movements have shattered existing party systems and thrown governments into turmoil. The embattled establishment claims that these populist insurgencies seek to overthrow liberal democracy. According to Michael Lind, the truth is no less alarming but is more complex: Western democracies are being torn apart by a new class war.

Politics and Conscience

Dag Hammarskjöld on the Art of Ethical Leadership

Roger Lipsey

Dag Hammarskjöld served as secretary-general of the United Nations from 1953 until his tragic death in a suspicious plane crash in 1961. During those years he saw the fledgling international organization through numerous crises with skill that made him a star on the international stage. In this handbook, acclaimed biographer Roger Lipsey details the political and personal code by which Hammarskjöld lived and made critical decisions.

Reconsidering Reagan

Racism, Republicans, and the Road to Trump

Daniel S. Lucks

A long-overdue examination of President Ronald Reagan's racist politics that continue to harm communities today and helped shape the modern conservative movement. Using research from previously untapped resources including the black press which critically covered Reagan's entire political career, Daniel S. Lucks traces Reagan's gradual embrace of conservatism, his opposition to landmark civil rights legislation, his coziness with segregationists, and his skill in tapping into white anxiety about race.

How America's Foundational Myth Feeds Inequality, Dismantles the Middle Class, and Devours the Elite

DANIEL MARKOVITS

The Meritocracy Trap

How America's Foundational Myth Feeds Inequality, Dismantles the Middle Class, and Devours the Elite

Daniel Markovits

Yale Law School professor Daniel Markovits presents a revolutionary new argument attacking the false promise of our so-called meritocracy. Americans still hold tight to the meritocratic ideal: that social and economic rewards should follow achievement; that social mobility should be possible, if hard-earned. But today, meritocracy has become exactly what it was conceived to resist: a mechanism for the concentration and dynastic transmission of wealth and privilege across generations.

The Case for the Green New Deal

Ann Pettifor

The Case for the Green New Deal argues that economic change is wholly possible, based on the understanding that finance, the economy and the ecosystem are all tightly bound together. The GND demands total decarbonization and a commitment to an economy based on fairness and social justice. It proposes a radical new understanding of the international monetary system. Pettifor offers a roadmap for financial reform both nationally and globally, taking the economy back from the 1%.

The Twittering Machine

Richard Seymour

The Twittering Machine is an unflinching view into the calamities of digital life: the circus of online trolling, flourishing alt-right subcultures, pervasive corporate surveillance, and the virtual data mines of Facebook and Google where we spend considerable portions of our free time. Through journalism, psychoanalytic reflection and insights from users, developers, security experts and others, Seymour probes the human side of the machine, asking what we're getting out of it, and what we're getting into.

When the Bulbul Stopped Singing

Life in Palestine During an Israeli Siege

Raja Shehadeh

The Israeli army invaded Ramallah in March 2002. This book is the account of what it is like to be under siege: the terror, the frustrations, the humiliations, and the rage of civilians becoming trapped in their own homes and at the mercy of soldiers who have been ordered to set aside their sense of human decency in order to bully, harass and in some cases brutalize an unarmed population. A new introduction by Colum McCann shows how little things have changed since this record of life under siege was first compiled.

Union

The Struggle to Forge the Story of United States Nationhood
Colin Woodard

Union tells the story of the struggle to create a myth of national unity for the United States. A small group of historians, political leaders, and novelists promoted a history that attempted to transcend and erase the differences and tensions between the nation's regional cultures. This emerging nationalist story was immediately and powerfully contested by those who argued that the United States was an ethno-state, the homeland of the allegedly superior "Anglo-Saxon" race.

COVID-19: IMPORTANT MESSAGE REGARDING DESK & EXAM COPIES

Due to the COVID-19 pandemic, the shipment of printed desk and examination copies may be suspended or delayed. Please refer to the desk and examination copy request page on the PRH Education website for the most current information.

EXAMINATION COPIES

penguinrandomhouseeducation.com/desk-and-exam/

Examination copies are available to college professors or instructors who wish to consider them for adoption at U.S. institutions.

Examination copies are available to instructors at U.S. institutions only.

To request an examination copy complete the secure online request form at:
penguinrandomhouseeducation.com/desk-and-exam/

Please wait to request forthcoming titles until their month of publication.

DESK COPIES

penguinrandomhouseeducation.com/desk-and-exam/

Penguin Random House supplies one free desk copy for every 20 copies of an adopted text required by instructors at accredited colleges and universities. Penguin Random House also honors desk copy requests for seminar and graduate courses with a minimum enrollment of 10 students.

To request desk copies:

Desk copies may be requested online using the form provided. This ensures that your request is processed as quickly as possible and makes your order easier to track.

If you need more than 5 desk copies of a single title, please email your request directly to:
highereducation@penguinrandomhouse.com.
