Four Hundred Souls

A Community History of African America, 1619–2019

Edited by Ibram X. Kendi and Keisha N. Blain

Four Hundred Souls is a unique one-volume “community” history of African Americans. The editors, Ibram X. Kendi and Keisha N. Blain, have assembled 90 brilliant writers, each of whom takes on a five-year period of that 400-year span. The writers explore their periods through a variety of techniques: historical essays, short stories, personal vignettes, and fiery polemics. They approach history from various perspectives: through the eyes of towering historical icons or the untold stories of ordinary people; through places, laws, and objects.

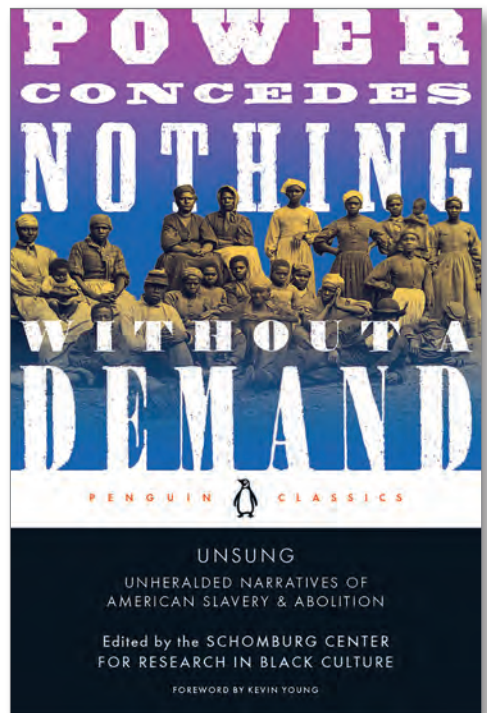

While themes of resistance and struggle, of hope and reinvention, course through the book, this collection of diverse pieces from 90 different minds, reflecting 90 different perspectives, fundamentally deconstructs the idea that Africans in America are a monolith—instead it unlocks the startling range of experiences and ideas that have always existed within the community of Blackness. This is a history that illuminates our past and gives us new ways of thinking about our future, written by the most vital and essential voices of our present.

Unsung

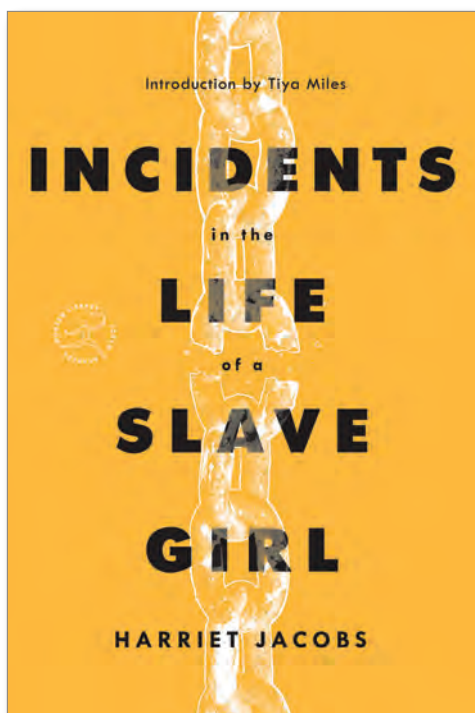

Unheralded Narratives
of American Slavery & Abolition

Edited by the Schomburg Center
for Research in Black Culture
Edited with an Introduction by Michelle
D. Commander; Foreword by Kevin Young

This is the first Penguin Classics anthology published in partnership with the Schomburg Center, a renowned cultural institution documenting Black life in America and worldwide. A historic branch of NYPL located in Harlem, the Schomburg holds one of the world’s premiere collections of slavery material within the Lapidus Center for Historical Analysis of Transatlantic Slavery. *Unsung* places well-known documents by abolitionists alongside lesser-known life stories and overlooked or previously uncelebrated accounts of the everyday lives and activism that were central in the slavery era, but that are mostly excised from today’s master accounts. *Unsung* also highlights related titles from founder Arturo Schomburg’s initial collection: rare histories and first-person narratives about slavery that assisted his generation in understanding the roots of their contemporary social struggles.

Incidents in the Life of a Slave Girl

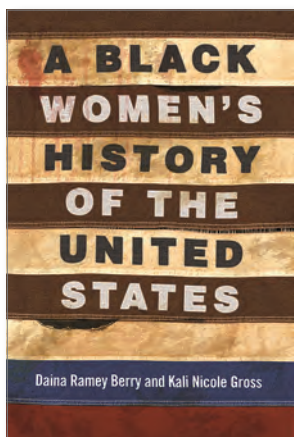

Harriet Jacobs

Introduction by Tiya Miles

Incidents in the Life of a Slave Girl is the unflinching 19th-century autobiography that broke the silence on the psychosexual exploitation of Black women—with an introduction by MacArthur “genius” grant recipient Tiya Miles.

In clear and unshrinking prose, Harriet Jacobs—writing under the pseudonym Linda Brent—relates the story of her girlhood and adolescence as a slave in North Carolina and her eventual escape: a bildungsroman set in the complex terrain of a chauvinist, white supremacist society. Resolutely addressing women readers, rather than men, *Incidents in the Life of a Slave Girl* seeks to make white women understand how the threat of sexual violence shapes the lives of enslaved Black women and children. Equal parts brave and searing, *Incidents in the Life of a Slave Girl* is a triumph of American literature.

“[A] crowning achievement . . . [Jacobs] remodeled the forms of the black slave narrative and the white female sentimental novel to create a new literary form—a narrative at once black and female.”—Henry Louis Gates, Jr., *The New York Times*

THE COMPANION BOOK TO THE PBS SERIES

The Black Church

This Is Our Story, This Is Our Song

Henry Louis Gates, Jr.

In this expansive reckoning with the meaning of the Black Church in America, the *New York Times* best-selling author of *Stony the Road* and one of our most important voices on the African American experience takes us on a journey spanning more than five centuries, from the intersection of Christianity and the transatlantic slave trade to today's political landscape. After Gates's distinctive meditation on the churches of his childhood, we emerge with a new understanding of the importance of African American religion to the larger national narrative—as a center of resistance to slavery and white supremacy, as a magnet for political mobilization, as an incubator of musical and oratorical talent that would transform the culture, and as a crucible for working through the Black community's most critical personal and social issues.

"Absolutely brilliant—a book that should spark a very rich conversation within the field and echo far beyond it. . . . A necessary and moving work."—Eddie S. Glaude, Jr., James S. McDonnell Distinguished University Professor of African American Studies at Princeton University

A Life in Music and Protest

Ian Zack

The first in-depth biography of the legendary singer and "Voice of the Civil Rights Movement," who combatted racism and prejudice through her music.

By merging the two, she channeled her own pent-up rage at prejudice and injustice into a universal message of hard-won hope and reconciliation."—*Wall Street Journal*

Ages of American Capitalism

A History of the United States

Jonathan Levy

Today, in the midst of a new economic crisis and severe political discord, the nature of capitalism in United States is at a crossroads. Since the market crash and Great Recession of 2008, historian Jonathan Levy has been teaching a course to help his students understand everything that had happened to reach that disaster and the current state of the economy, but in doing so he discovered something more fundamental about American history. Now, in an ambitious single-volume history of the United States, he reveals how, from the beginning of U.S. history to the present, capitalism in America has evolved through four distinct ages and how the country's economic evolution is inseparable from the nature of American life itself.

"It is impossible to understand the United States without understanding its economic history. This book, from one of the nation's foremost historians of capitalism, brings that important and endlessly fascinating story to life."—Sven Beckert, author of *Empire of Cotton*

As the ranking member of the Senate Judiciary Subcommittee on Antitrust, Competition Policy, and Consumer Rights, she puts forth her plans, ideas, and legislative proposals designed to strengthen the antitrust laws and antitrust enforcement.

The History Makers

2,500 Years of Shaping the Past

Richard Cohen

In *The History Makers*, Cohen reveals how professional historians, major novelists, dramatists, journalists, political propagandists, and even the writers of the Bible have and continue to influence the accepted records of human experience. Is there, he asks, even such a thing as “objective” history? And what is it to call someone a historian in the first place?

A lively tour guide, Cohen leads a delightful inquiry into the published works and private utterances of our greatest historical thinkers to discover the agendas that informed their views of the world, and which in so many ways have informed ours. From the origins of history writing—when such an idea seemed itself revolutionary—to the practitioners of “Bad History” (those thieves who twist reality to glorify themselves and conceal their own or their country’s behavior), Cohen’s inquiry takes us all the way up through the digital age and the advent of television.
